

# *Understanding Your Municipal Services Statement*

---

The City provides water, wastewater and stormwater services to the residents of the City. The City sends monthly statements to customers on a consumption basis for water and wastewater and on a monthly flat rate for stormwater. In addition, the Municipal Services Statement includes a monthly Public Safety Fee, Communications Officer Fee, and Transportation Utility Fee.

City Council adopted the recommended utility rate changes by the Citizen's Rate Review Committee (CRRC) on September 21, 2020. The amount of the rate change varies by customer class. The effective date for the rate changes are January 1, 2021 and January 1, 2022.

The Committee met multiple times between Fall 2019 and Summer 2020 to review the water, wastewater, and stormwater characteristics and requirements, including the Capital Improvement Program and operating and maintenance costs for all three systems.

The following pages show examples of what the new utility bill for Single Family homes will be when averaging water use of 200 cubic feet, 500 cubic feet, 700 cubic feet, and 1,000 cubic feet a month compared to your current utility bill. The charges for Wastewater (Sewer) is based on the Winter Average consumption of the months of November, December, January, and February. This is the amount found near the top of your monthly statement.

Visit the City's website <https://www.newbergoregon.gov/finance/page/understanding-your-bill> for more tips on water conservation measures.
